

Estimate follow-up for HVAC teams.

Keep good estimates from going quiet.

A supervised pilot to organize eligible, unanswered HVAC estimates, prepare follow-ups and track the next step. Results depend on your estimates, customers and follow-through; revenue is not guaranteed.

See what needs attention —

Bring eligible, unanswered estimates into a clear review list.

Follow up with less busywork —

The pilot prepares clear messages. Your designated reviewer approves each one before it is sent.

Keep the conversation moving —

Replies and stop requests pause follow-up so your team can take over.

More ways to keep work moving.

Maintenance & repeat service — Reminders that support repeat visits.

Reviews & referrals — Neutral requests after completed jobs.

Invoice reminders — Each message individually approved.

Schedule openings — Eligible opportunities for your team to review.

Requested voice — Setup and consent are required.

New capabilities are being built and tested. Availability and scope are confirmed before purchase.

Your team stays in control. No customer message goes out without individual human approval.

A clear first step.

A focused 30-day pilot.

\$2,500 total

\$1,000 setup + \$1,500 for the first 30 days.

One business, location and email route • 50 eligible estimates • 100 planned follow-ups
• 150 total outgoing attempts, including retries/replies • Weekly review + day-30 report
• Standard setup: up to 12 hours; full terms apply.

1. Confirm the fit — Agree the scope, reviewer and supported setup. Verify live readiness and acceptance before billing.

2. Start together — Pay after readiness is confirmed. Finish onboarding and agree the activation date. That is when your 30 days begin.

3. Review, respond, improve — Your reviewer checks prepared messages. Your team handles customer questions and records booked or won work.

Optional continuation: \$1,500/month by agreement. No automatic renewal or overages. Tax treatment agreed before invoicing.

Fictional demo available. Live customer delivery is not yet verified; portal and payment automation are in development. The quoted pilot excludes voice, SMS, automatic booking and the additional capabilities on page 1. Final agreement governs.
